Robust pallet mover: fast transporting!

Ideal for long distances

Increase your efficiency to a new level!

The efficient and robust ERE BB 220 electric pallet mover is particularly suitable for economic indoor transport over longer distances. Equipped with a folding stand-on platform and support arm, it can be used very flexibly over long distances. The multifunctional tiller arm is intuitive to use and can be operated with the right or left hand. This contributes to greater efficiency and safety in your warehouse. The robust quality components are beneficial for reliable operation and lower wear and tear. A powerful motor also enables the truck to keep stable and safe in heavy work conditions. A variety of practical configurations greatly improve operational safety while increasing driving pleasure for the operator.

German quality

Genuine parts
with fast, reliable service

Fast, reliable service with genuine parts

Jungheinrich services stand for partnership, trust and the highest quality. We guarantee you, our customers, to trust in our excellent service so that you can feel free to focus on your core business.

All benefits at a glance

- Electric tiller steering for fatigue-free operation
- Multifunctional control panel for comfortable operation and improved work efficiency
- curveCONTROL for enhanced safety and great comfort
- CAN bus technology makes fault diagnosis and troubleshooting easier
- A powerful motor provides stable operational performance when moving heavy loads

Your Jungheinrich pallet truck for maximum customer benefits

Efficiency

Innovative drive technology

- High efficiency levels with excellent energy management.
- Rapid direction change.
- Maintenance-free drive motor.

Energy-efficient operation

- Battery and components are well protected and efficiency is increased thanks to the energy management.
- Automatic lift cut-off function significantly reduces energy consumption.
- Energy recovery thanks to regenerative braking on deceleration.

Safety

Comfortable and safe operation

- Fatigue-free work due to electric tiller steering.
- curveCONTROL automatically reduces speed when cornering.
- The sprung stand-on platform effectively removes the strain on the operator's spine.
- Soft padded side arms ensure a comfortable posture for the operator when cornering.

Service-friendly design

- Body panel is easy to open with just 2 screws.
- Service access ports on front apron.
- CAN bus technology makes fault diagnosis and troubleshooting easier.

Individuality

Strong and concise design

- 8-mm thick frame together with the iron battery cover maximises the truck's lifetime.
- The side arms and stand-on platform are integrated and always remain within the truck body when folded, giving increased compactness.
- High-strength frame design provides better truck stability.

Additional equipment

- PIN code and transponder as standard.

Overview

The right solution for your applications:

Name	Load capacity/load	Travel speed unladen	Aisle width (pallet 800x1200 length)	Lift speed unladen
ERE BB 220 (540*1150mm)	2000 kg	8 km/h	2290 mm	0.03 m/s
ERE BB 220 (685*1150mm)	2000 kg	8 km/h	2290 mm	0.03 m/s

The German production facilities in Norderstedt, Moosburg and Landsberg are certified.
